

Suziquatro, Wish Upon Me

(Brown/Straley/Krems)

It seems you need someone to believe in
Someone to hold you on the coldest nights
So come to me baby get close to me
I got something here for you to try
Try me

Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me

Count on me to infinity
My love will be here
When the star's burn out
So reach out and touch me
We'll be as one
Trust the passion rising up inside
Don't give up

Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me

Let me be the star that guides you
Let the love rise from deep inside you

Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me
Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me
Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me
Wish upon me
And night after night after night after night
I'll make your wish come true
Wish upon me
