

# Swan Lee, Love Will Keep You Warm

Oh baby I know it's hard  
Finding your way  
And darling if your clouds  
Won't go away

And if your sun keeps hiding  
Don't let it get you down  
You've got my heart shining

Love will keep you warm

Oh baby I still believe  
In dreams come true  
Sweet darling there is a wonder  
In all that you do

If a storm is coming  
Don't let it tear you apart  
You've got my heart humming  
So stop trying so hard

Love will keep you warm

Stop trying so hard  
You know you're running  
Around like a fool  
You're fooling your heart  
So get your feet back down  
On the ground  
Love is all around

Love will keep you warm  
Keep you safe from harm

You know I still believe
