Swan Lee, Love Will Keep You Warm

Oh baby I know it's hard Finding your way And darling if your clouds Won't go away

And if your sun keeps hiding Don't let it get you down You've got my heart shining

Love will keep you warm

Oh baby I still believe In dreams come true Sweet darling there is a wonder In all that you do

If a storm is coming
Don't let it tear you apart
You've got my heart humming
So stop trying so hard

Love will keep you warm

Stop trying so hard You know you're running Around like a fool You're fooling your heart So get your feet back down On the ground Love is all around

Love will keep you warm Keep you safe from harm

You know I still believe
