

Swans, Tragic Seed

the only real thing's misery.
submission means you get murdered.
you get revenge when you wait for it.
frustrated means you're insane.
he's a dead thing under the sheet.
causing pain.
sex turns impotence into decay.
unconscious repression degrades the real thing.
you can't kill a criminal need.
you're polluted with fear you need comfort.
you can't kill what you don't see.
you can't think what you don't own.
you can't rub what you don't recognize.
you don't get what you really deserve.
you can't fight if you don't feel it.
obedience pays if you use it right.
you degrade yourself when you hide your fear.
when you eat your pain you keep your nerve.
use it right.
or don't feel it.
use it right or don't feel it.
