

# Sway, Level Up (feat. Kelsey)

We level up  
We level up  
Smash

Yeah we level up  
I'm gonna climb up the levels, go harder  
Lights flash every time we go fast  
I'll never lose the game, I'm gonna last  
So let's start  
Yeah we level up

All over the radio and back up in the raves again  
We got the crowd on a wave like it's a stadium  
Call me the weatherman, it's about to be a great weekend  
I'm on the cloud, let's make it rain again

Yeah, we level up

Nice but naughty, shirts and dresses looking saucy  
Living in our minuses 'cause life begins at 40  
Level up, call me Bond, James Bond  
How I maintain? I tell them winner stays on

My brain racing like I'm trying to win the gold for Britain (yes!)  
On a one track mind, let's go the distance  
We're only stopping when we pose for pictures  
And now we move so wavy, we get motion sickness

Yeah, we level up  
I'm gonna climb up the levels, go harder (here we go again)  
Lights flash every time we go fast (here we go again)  
I'll never lose the game, I'm gonna last  
So let's start  
Yeah we level up

Feeling like I just won the lotto  
Pop a bottle and I make 'em say aahh like I'm your dentist  
Keys to the suite, you can call me Alan Sugar  
Yeah we're firing tonight, and I might need an apprentice

Reunion, old school and uni friends  
It's your excuse to act like hooligans  
Bend and break the rules again  
Parties just getting started at 2 am  
Waking up at noon next to 'Who are you again?

Looking in the mirror and I feel like I'm famous  
I got that glimmer in my eye like I ain't afraid of dangers  
Today could be the day that everything changes  
I'm trying to move up to the hills where idols become neighbors  
One moment, your whole world rearranges  
You're feeling like you graduated Oxford or Cambridge  
Forever roll the dice and have it looking like Vegas  
You win some you lose some, but only winners take risks

I start getting calls, I've been waiting on for ages  
Phone starts popping and I'm gossiping with strangers  
I'm out getting wasted  
All of these flashing lights popping up in places  
Always forgetting names, especially with ladies  
Uh huh, what's your name again?  
My house, lights out  
Wake up in the Tee saying 'Touch me I'm famous?  
(Yeah we level up)

Hey stranger, where you been?  
Long time no see  
(Time to level up)  
I?m in the game, play to win  
Another round on me

Yeah we level up  
I?m gonna climb up the levels, go harder  
Lights flash every time we go fast  
I?ll never lose the game, I?m gonna last  
So let?s start  
Yeah we level up
