

Sweatshop Union, Comes & Goes

People keep talkin about me
I dont ever hear what theyre sayin
You best move on without me
All Im gonna do is keep delayin
My strength my confidence, my common sense, my moneys gone
My soul I sing my songs, weve moved along now somethings wrong

I got a problem with the daylight
He told me ?-----? follow with a straight right
It aint right but it aint like I aint tryin
Hard to be a star in the sunshine
I hear the night lines in the night time
Found when she left me lost was my right mind
So I write rhymes reachin for my lifeline
Who wants to be a millionaire anyway?
Im a penny away from makin pennies a day
So lend me your ear and Imma take it away
Never pay you back with the sh*t that I say
Ill get it by tomorrow give me somethin today

It comes and goes,
I heat it up and it froze
I need it somewhere that snows
Dont ask me why I dont know
I know it comes and goes
I build it up and it falls
I tear it down when it grows
Dont ask me why I dont know

I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)

Now theres a church and a mosque and a temple
Had faith but it aint that simple
They use a symbol to get us assembled
Just fear in a God man cuz trust a devil
Imma get well sittin by the sitt----dale
Sip a bottle of Jack and wish on the wishing well
Then I catch a tale, everyone a fairy tale
Im feelin alright yeah mother f*cker read the grail
Cuz they blind to the fact that the fact is the mind aint aligned
With the nature in divine
Only I can define what is yours what is mine
What is God made of hate? got mad at mankind
Cuz mankind aint made of kind man
Yet Ill come in lookin for the next day back, yo
But all my moneys on the table can I have another hit

It comes and goes,
I heat it up and it froze
I need it somewhere that snows
Dont ask me why I dont know
I know it comes and goes
I build it up and it falls
I tear it down when it grows
Dont ask me why I dont know

I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)

I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)
I dont know (I dont know, I know it comes and it goes)

I aint myself at all, cant save myself at all
From fantasy to reality my dreams are nightmares I believe
I aint myself at all, cant save myself at all
From fantasy to reality my dreams are nightmares I believe
I aint myself at all, cant save myself at all
From fantasy to reality my dreams are nightmares I believe
I aint myself at all, cant save myself at all
From fantasy to reality my dreams are nightmares I believe (I dont know)

I dont know, I dont know
I aint myself at all, cant save myself at all (I know it comes and it goes)
(From fantasy to reality my dreams are nightmares I believe)
I dont know, I dont know
I aint myself at all, cant save myself at all (I know it comes and it goes)
(From fantasy to reality my dreams are nightmares I believe)
I dont know, I dont know
I aint myself at all, cant save myself at all (I know it comes and it goes)
(From fantasy to reality my dreams are nightmares I believe)

I dont know, I dont know
I aint myself at all, (I dont know, I dont know, I know it comes and it goes)
