

# Sweet, Burn On The Flame

Every time I look into your eyes  
you make feel alright  
every time you whisper sweet surprise  
you make feel alright  
Alright

Love me like fire  
burn on the flame  
touch me take me higher  
I'll go insane  
Every little word I say to you  
I make you feel alright  
Every single moment I'm with you  
I make you feel alright  
Alright

Love me like fire  
burn on the flame  
Love me like fire  
burn on the flame  
touch me take me higher  
I'll go insane
