

# Sweet Dreams, I'm Never Giving Up ( Eurovision

I don't believe in idle gossip  
The jealous mind can be unfair  
I hear them make their accusations  
But baby, come what may, no matter what the people say -  
I'm never givin' up, not givin' in  
If there's the slightest chance that I could win  
The battle may be lost, but I can win the war  
And get your lovin' back the way it was before  
At times it's hard to see the changes  
Or read the writing on the wall  
We may become the best of strangers  
But I'll keep holding on until I know my chance has gone  
I'm never givin' up, not givin' in  
If there's the slightest chance that I could win  
The battle may be lost, but I can win the war  
And get your lovin' back the way it was before  
Never givin' up, I'm never givin' up  
I'm never givin' up, not givin' in  
If there's the slightest chance that I could win  
The battle may be lost, but I can win the war  
And get your lovin' back the way it was  
I'm never givin' up, not givin' in  
If there's the slightest chance that I could win  
The battle may be lost, but I can win the war  
And get your lovin' back the way it was before  
Never givin' up, I'm never givin' up  
(I'm allowed to... all I want to... need your lovin')  
I'm never never givin'... never never givin'... never givin' up
