

Sweet, Give The Lady Some Respect

Just give the lady some respect oh boy
She's gonna eat off ya plate oh boy
Do you know if she where mine
I would give her some more time
Yes and she wants talking to sir
Listen or you gonna loose her
Waking up to the truth there
Just give the lady what you think she needs
Just give the lady what you know she needs
And if you let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If any thing you said should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you
The lady needs to know you
The lady needs to know
If you feel you need some one to turn to
But you are affriad that love will burn you
And your head is crying save me
Talking that with the lady
Yes and she was all up too sir
Listen or you gonna loose her
Oh-Oh just give the lady what you think she needs
Just give the lady what you know she needs
And if you let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If any thing you said should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you
The lady needs to
Just give the lady some respect oh boy
She's gonna eat off ya plate oh boy
Do you know if she where mine
I would give her some more time
Yes and she wants talking to sir
Listen or you gonna loose her "You gonna loose her"
So give the lady whats she really needs
Just let her get to know you better
She'll never let you down
Oh-Oh the lady needs to know you
If any thing you say should upset her
Don't let it turn you round
Oh-Oh the lady needs to know you
Oh-Oh the lady needs to know you
Oh-Oh the lady needs to know you
Oh-Oh the lady needs to know you
Oh-Oh the lady needs to know you
