Sweet, Into The Night

I was a king thought of everything Into the night Then I was out everybody shout Into the night I kinda was having lots of fun Into the night And now I've lost gotta count the cost Into the night I couldn't lose When I was on top I couldn't lose But now it's all stopped I wore a crown then began to frown Into the night I cast a spell and it fell on me Into the night I dig a hole 'cause I got no soul Into the night I hear a phone then began to moan Into the night I couldn't lose When I was on top I couldn't lose But now it's all stopped I'm in a sea floating on one knee Into the night I think I'll drown oh I'm going down Into the night Is this a dream in agolden beam Into the night I look up high and there's no sky Into the night I couldn't lose When I was on top I couldn't lose

But now it's all stopped
