

Sweet Matthew, Come To California

started with a rose
ended up a millionairess queen
in your new electric chair
sweetly sitting there building up steam
watch your mind little bit
or you're gonna have to make believe
flew into LA
caught a screening of your lifelong dream
blew it in LA
now you're desperate to create your own scene
but watch your mind little bit
'cause you're headed into the machine
come to California . . .
come to California
baby let it all hang out
come to California
tell us what it's all about
but watch your mind little bit
'cause the future is beginning now
come to California . . .
but watch your mind little bit
'cause you're headed into the machine
come to California . . .
