

Sweet Matthew, Winona

I tried to call you
But the line was busy
Were you talking to a friend?
And when I tried again much later
I didn't want to let it ring again
So you can see I've got a problem
Back by popular demand
Sometimes I want to keep it from you
Sometimes I think you'd understand

Chorus:

Could you be my little movie star?
Could you be my long lost girl?
It's true that I don't really know you
I'm alone in the world
When I think maybe I need you
And I don't care if it's not true
It isn't so much what I need now
As what I really want from you

Chorus

It's true that I don't really know you ...
I'm alone in the world
