

# Sweet Noise, Civilized

Fear grows  
Just like a tree it grows  
The roots tear apart the soul  
Suck the nerves  
Suck the core  
You' re eyes  
I fear  
You' re words  
I fear  
Dehumanized  
Destructiv  
Poisonous

I hear the rhythm  
The rhythm of rage, death and panic  
Millions of hearts  
Beat the rhythm  
It is nervous  
Unsteady

Bloodthirst  
Here come the wheels of the hate machine  
Man destroys what man built  
Monuments are falling down  
Cruel gods  
Greedy gods  
False gods  
Here comes a man  
Civilized

Nature's scream  
Mothers' moan  
Old man's tears  
A child is weeping  
It's we who are our worst, deadly enemies  
We had the holocaust  
The Vietnam  
We had the world wars  
We killed in the name of God  
We burnt the land  
We buried alive  
We made men slaves  
We killed their pride  
We are a racist's song  
The black rain  
The starve of the starving  
The tortured man's pain  
We are the liar's tongue  
The brothers war  
The broken hope  
We are civilized
