

# Sweet, Play All Night

All I wanna do is play all night for you  
If the system blows a fuse  
It ain't gonna make the national news  
All I wanna do is play all night for you  
If the system blows a fuse  
It ain't gonna make the national news  
Your old man says where you gonna go  
Cos you can't go far  
Said I'm going downtown to see some rock and roll  
In my party friends car  
I listen to the radio  
Hot cast from the show  
One night in town  
I wanna be around  
To hear the band say  
All I wanna do is rock and roll with you  
If the system blows a fuse  
It ain't gonna make the national news  
All I wanna do  
Then she took off her shirt  
And she throu it to the stars said  
It gotta be the grass  
Some young thing  
With a fake id and a backstage pass  
There's nothing she won't do  
To have a way with you  
It's gotta be tonight  
Cause tomorrow I'm gone  
So you hear what I say  
All I wanna do
