## Sweet, The Lollipop Man

(A. Hammond / M. Hazlewood)

You go to the girl's school And I go to the boy's school Both seperated by a lollipop man I must cross the street to Get around to meet you Therefore I have to pass a lollipop man

Lollipop man, there's a lollipop man Who stands in the middle of the street (Ain't he sweet) There's a lollipop man, yeah a lollipop man Hey, good golly there's a lollipop man

He carries out his duty Isn't he a cutie There in the middle with his Iollipop pole Opposite the high school Right in front of my school He's so incredible He's really got soul

Lollipop man, lollipop man
Lollipop man, lollipop man
He won't let the traffic come between us
We can be together very soon
But he will make the traffic stop
With his giant lollipop
Looking just a little like a moon man

In a yellow rain coat And a pair of gum boots There in the midst of an incredible jam Any kind of weather Bringing us together There stands a funny little lollipop man

Lollipop man, there's a lollipop man Who stands in the middle of the street (Ain't he sweet) A lollipop man, there's a lollipop man Hey, good golly there's a lollipop man...
