

# Sweetbox, Beautiful Girl

Another magazine creates a dream that I can't reach  
That I can't be but I try to be  
And another label tells me  
That it's just not enough to be just me  
Airbrush those thoughts, because they're not pretty  
But why do you want

Just a beautiful girl  
Just a beautiful girl  
Is that all that you need?  
Tell me what's a beautiful girl  
What's a beautiful girl  
Is that all that you see?  
With the perfect answers  
And the perfect smile  
So you never have to really try  
You know that a beautiful girl  
A beautiful girl  
Isn't all that it seems

Another diet failure  
Another night of you ignoring me  
And your silence burns through my dignity  
You're not a glossy cover either  
So why are you expecting me to be?  
Flesh or fantasy, my heart still beats  
But why do you want

Just a beautiful girl  
Just a beautiful girl  
Is that all that you need?  
Tell me what's a beautiful girl  
What's a beautiful girl  
Is that all that you see?  
With the perfect answers  
And the perfect smile  
So you never have to really try  
You know that a beautiful girl  
A beautiful girl  
Isn't all that it seems

What's so damn attractive about being a mime?  
I know my beauty's in my story not one line

Just a beautiful girl  
Just a beautiful girl  
Is that all that you need?  
Tell me what's a beautiful girl  
What's a beautiful girl  
Is that all that you see?  
With the perfect answers  
And the perfect smile  
So you never have to really try  
You know that a beautiful girl  
A beautiful girl  
Isn't all that it seems  
Isn't all that it seems
