

Sweetbox, Everytime

Everytime By Sweetbox

Sometimes i question you and me
the reasons that im here are hard to see
but when i feel your fingertips brush mine
i swear i see heaven for a moment in time
been running been hiding
so scared of love

but everytime you look into my eyes
and everytime you kiss my lips goodnight
the honesty's too much
its in the way we touch
it gets me everytime

everytime you look at me that way
theres so much said when there's nothing to say
the sweetest thing i heard without a single word
it gets me everytime
it gets me everytime

MmmmmMmm

sometimes i wake up next to you
and i wonder if you knew
that you would change my mind with just one kiss
that you would be the one from that night
been running been hiding
so scared of love

but everytime you look into my eyes
and everytime you kiss my lips goodnite
the honesty's too much
its in the way we touch
it gets me everytime

anytime you look at me that way
theres so much said when there's nothing to say
the sweetest thing i've heard
the sweetest thing i've heard
the sweetest thing i've heard
it gets me everytime
it gets me everytime
Ooh Ooh

(echos) Ooh Ooh

Ooh Ooh Ooooh

(quietly) been running

yeahhhhhhhhhhh

Oohh ohh

but everytime you look into my eyes
and everytime you kiss my lips goodnight
the honesty's too much
its in the way we touch
it gets me everytime
it gets me everytime

Mmmmmmmmm Mmmmmmm
