

# Sweetbox, For The Lonely

This is for the lonely  
This is for the lonely  
Sometimes I think  
I wished on the wrong star  
Cause I always seem so far  
but the one that I dream of  
It's hard to wait for love  
but I make it on my own  
Cause I'm learning to be strong  
but it's never easy standing all alone

Chorus:

This is for the lonely (loney)  
This is for the lonely (loney)  
We all live underneath the same blue sky  
This is for the loneliness tonight  
I'll help you find a way to hold on  
At night I cry (At night I cry)  
But noone's by my side (Noone's by my side)  
My tears they go unheard  
So I look for the words  
to raise my heart  
Now I sing this prayer  
That somehow and that somewhere  
I would turn around if I love standing there

Chorus:

This is for the lonely  
This is for the lonely  
We all live underneath the same blue sky  
This is for the loneliness tonight  
I'll help you find a way to hold on

This is for the lonely  
This is for the lonely  
We all live underneath the same blue sky (we love, we love)  
All my tears may go unheard  
cause no one's by my side  
It's hard to be unloved  
It's hard to wait for love  
Oohhoo...  
This is for the loneliness tonight  
I'll help you find a way to hold on (I'll hope you find a way, You'll find a way)  
This is for the lonely (I know you love me)  
This is for the lonely (I know you love me)  
We all live underneath the same blue sky (I'm gonna help you to hold on)  
This is for the loneliness tonight (Ohh..)  
I'll help you find a way (I'll help you find a way)  
This is for the lonely
