

# Sweetbox, Human Sacrifice

(Verse 1)

Do you still remember when you promised me the perfect love  
And I gave you everything and still you said it wasn't enough  
When you hit me verbally put me on my knees and blamed it on me  
And I'd swallow it down

I let you break my wings chose to become your caged up bird  
Ate your bullshit promises and cherished every fucking word  
Now like a freedom phoenix burning from a rising sun  
Here is my vindication

(Chorus)

Alright, okay  
You're gonna get a taste of my heartbreak  
Right now, today  
I'm gonna make you regret all your dirty ways  
Alright, okay  
You're gonna get a taste of my heartbreak  
Right now, today  
I'm gonna make you become my human sacrifice

(Verse 2)

Let's go back into the time you stained my heart like Merlot wine  
Didn't care if I was sick you left me alone to cry and die  
Your human sacrifice alone in your church of love and lies  
I did not forget  
I'm back with ammunition on a mission that will make you pay  
Back with a bazooka and a bullet where I wrote your name  
Risen up from the ashes ready for my justice day  
Here I come for you

(Repeat Chorus)

(Repeat Verse 1)

(Repeat Chorus Out)
