

Sweetbox, I'll Be There

Yeah

We all know how it is
Sometimes, you need a shoulder to lean on
And when that time comes
You know I'm there, come on
(I'll be there...I'll be...)

Doesn't matter when you call me at night
I'll be there, I'll be there all the time
Doesn't matter when the tears hurt your eyes
I'll be there, I'll be there it's alright
I will care...I wish share...I will take you out of the dark
Doesn't matter when you call me at night
I'll be there, I'll be there all the time

Yeah, if I'm down cause I lost my job
And I'm feeling depressed
Would you help me relieve the stress
What if I'm sick and I need to rest
Would you tuck me in, feed me soup and rub my chest
And then the times when I just need somebody to talk to
Are you the right one I can walk to
When I'm down, the tears is pouring, its three in the morning
Would you pick up the phone when I'm calling?
Tell me girl

Doesn't matter when you call me at night
I'll be there, I'll be there all the time
Doesn't matter when the tears hurt your eyes
I'll be there, I'll be there it's alright
I will care...I wish share...I will take you out of the dark
Doesn't matter when you call me at night
I'll be there, I'll be there all the time

Yeah...

You know I need someone during for serious times
You know

We all go through our ups and downs
At times I wanna cuss and frown
When bad luck sucks you down
I need someone to cheer me up, make me laugh
Splash away the grief when we take a bath
And in my time of my need
She'll be there for me always
And we can chill and relax on our off days
It's only right to give her all praise
Cuz when the time gets tough
She'll be killing me softly as she says:

Doesn't matter when you call me at night
I'll be there, I'll be there all the time
Doesn't matter when the tears hurt your eyes
I'll be there, I'll be there it's alright
I will care...I wish share...I will take you out of the dark
Doesn't matter when you call me at night
I'll be there, I'll be there all the time

I know it isn't easy
I know it isn't fair
I know that life is heavy when no one cares
And we all need a shelter
We all need a home
So come with me cuz I will never let you cry alone

Doesn't matter when you call me at night
I'll be there, I'll be there all the time
Doesn't matter when the tears hurt your eyes
I'll be there, I'll be there it's alright
I will care...I wish share...I will take you out of the dark
Doesn't matter when you call me at night
I'll be there, I'll be there all the time

Doesn't matter when you call me at night
I'll be there, I'll be there all the time
Doesn't matter when the tears hurt your eyes
I'll be there, I'll be there it's alright
I will care...I wish share...I will take you out of the dark
Doesn't matter when you call me at night
I'll be there, I'll be there all the time
I'll be there, I'll be there all the time
