

Sweetbox, Never Wanna Be Alone

Chorus: I never wanna be alone
I never wanna love no one
I never wanna be without you
Can i lay next to you
I never wanna live without you

Verse 1

Imagine loving someone so much
missing your smile, kiss and touch
to live alone without you I'd die
I cry in fear of loneliness sometimes
But i really believe my heart beats one life
and it's you I choose
I can't love another
I never wanna live my life without you
Chorus...

I'm never gonna give you up
living alone is not worth as much
without you I can't eat or sleep
I close my eyes and it's you I see
and every day that I breathe
from the hightest mountain to the seas
I will be waiting
waiting for you to come to me
Chorus...

As I think and lay alone
I never wanna hold no one
I always dreamed one day you'd come
somehow just to show me love
and this time it's so real
you tell me what you see and feel
Cause it's you I want
Cause I can't wake up to another love
Chorus...
