

# Sweethearts Of The Rodeo, We Won't Let That R

Honey you must've cried a river when your last love left you blue  
I know sometimes that river winds through the middle of our love too  
You're gonna have to learn to leave again I won't let you down  
My love'll let you walk on the water and carry you to higher ground  
We won't let that river come between us  
Let these troubled waters roll on by  
We won't let that river come between us  
I'm gonna hold you in my arms till that river runs dry

You gotta have a little faith in me boy forget about yesterday  
What's done is done I'm not the one who washed your dreams away  
We gotta get over that river somehow leave it all far behind  
Follow me over that rainbow no telling what we might find  
We won't let that river...

We won't let that river come between us  
Honey you must've cried a river honey you must've cried a river  
Honey you must've cried a river honey you must've cried a river
