

# Sweethearts Of The Rodeo, You Never Talk Sweet

Ooh you never talk sweet the way you used to do  
Oh you never whisper in my ear I love you  
Oh it's been so long could it be that the feeling's gone  
Oh you never talk sweet ooh you never talk sweet  
Yeah you never talk sweet the way you used to

Oh you never take me for a drive in the moonlight  
Oh you never take me in your arms and hold me so tight  
Oh when the stars shine bright you're sittin' in the TV light  
Oh you never talk sweet...

I'm not saying that it always has to feel like the first time  
I'm not asking for any big deal show me a sign you're still mine  
[ guitar ]  
Come on it's not too late make believe that it's our first date  
Oh and you can talk real sweet...
