

Swift, Almost There

Well I still recall the day you walked away
It wasn't what I had in mind
And it was the hardest thing to let you go
Cuz I know you could've loved me if you tried

(Chorus)
And we were almost there
Yes we were almost there
And we were almost there

Well keeping track of you's a painful thing
How I hate to see you fall
And how I die inside when you can't see
That I'd love to be there with you through it all

(Chorus)

Come away with me my love
We almost had a good thing going
Come back come back
Come away with me my love
Come back come back
Come away with me my love

Now you go ahead and do what you have to do
I hope and pray you change your mind
But if you come back could you remember to bring my heart
I'll stay right here so I'm not hard to find

(Chorus)
