

Swim Deep, The Sea

Go, down to the sea
And tell me what it is that you wanna be
I said go, down to the sea
And tell me what it is that you wanna be

Go take this boat and drive it out into the sea
Go fly this plane so high that I won't know what's real
Go paint the sky so red that I won't wanna feel
What my mamma and my dadda said was real

'Cause I can feel it
And I can see it
I wanna show anybody who wants to feel it
'Cause I can feel it
And I can see it
And I won't be there to see

Who's got something
Got something to say
Who's got something
Got something to say

Can you see it in your thoughts?
Can you reach it, does it make you wanna walk?
Can you taste it in the feeling that you've got?
Tell me something over nothing ain't so wrong

Cause I can feel it
And I can see it
I wanna show anybody who wants to feel it
'Cause I can feel it
And I can see it
And I won't be there to see

You, don't know
Is that I'm feeling strong
I'll have my eyes set on you
Forever

Who's got something
Got something to say
Who's got something
Got something to say
Who's got something
Got something to say
Who's got something
Got something to say
Who's got something
If you'd only, only, only stay
