

# Swing Out Sister, That's The Way It Goes

(Swing Out Sister)

Always together

Together but always alone

If living's a sentence

What kind of existence is this one?

The feelings are there

But our hearts have been missing for so long

There's nothing to share

We've been going nowhere for too long

Tainted

Words that weren't intended to be said

Tainted

Though your pride fights to the bitter end

Always together

Temptation has torn us apart

Lies last forever

The only way out is a clean start

Tainted

Words that weren't intended to be said

Tainted

Though your pride fights to the bitter end...
