

# Swing Out Sisters, Better Make It Better

Take it fast, take is slow,  
But it won't soften the blow  
When it's time to go  
May be old, may be scared  
But you'll never be prepared  
For that final blow

Better use your wits or you'll lose your mind...  
There's a world to discover and you're running out of time  
Like a roller coaster ride  
Took you by surprise  
Now you're burnin' up inside

Better make it better, yeah eah  
Better make it better,  
Better make it better,  
Time's running out fast  
Make it last

You can scream you can shout,  
But when your time runs out  
Deep inside you'll know  
May be rich, may be poor,  
But when you knock on heaven's door,  
Well you have to go

Make the most of what you've got  
'cause it's better than to not have anything at all.  
Live each day as it's your last  
Or you'll find the future's passed and you're left with nothing at all

Better make it better, yeah eah  
Better make it better,  
Better make it better,  
Time's running out fast  
Make it last

Cherish every day each hour each and every single minute  
There's no second chance to turn when they start again living your life

Better make it better, yeah eah  
Better make it better, oooh  
Better make it better,  
Time's running out fast  
Better make it better now  
Better make it better  
Make it last  
Better make it better now  
Better make it better now

Better make it better, yeah eah  
Better make it better, oooh  
Better make it better,  
Time's running out fast  
Make it last

Better make it better now

Better make it better  
Make it better now  
Better make it better now  
Better make it better now
