

Swing Out Sisters, Don't Let Yourself Down

(Swing Out Sister)

Flying High

Flying low

Hate to be the one to say, "I told you so"

What picked you up has let you down

Up to tricks just for kicks

Guess those plain home comforts couldn't keep

You fixed

And now their habits have got you licked

Don't let yourself down

Trust your heart because you know's the best

Don't let yourself down

Trust in love and you'll have no regrets

You're out on your own

From now on, don't let yourself down

Don't be fooled, life is cruel

Nothing comes to you until you've paid your dues

You're no exception to the rules

Chorus (2x)

There's no use in dreaming

You won't be satisfied

Until you come clean

Don't be surprised if life treats you mean

Don't let yourself down

You're out on your own

Don't let yourself down

Don't let yourself down

Don't let yourself down

You're out on your own

Don't, don't let yourself down

Don't let yourself down

Don't let yourself down

You're out on your own

Own, don't let yourself down
