Swing Out Sisters, Stop And Think It Over

(Swing Out Sister)
Your head keeps spining 'round
And precious time is running out
But what's another day
If you don't stay
There's a lifetime to wish away
You're running on the spot
And chasin' what you haven't got
But is it such a crime
To take your time
You might just find that you've changed your
Mind
Stop before you start
Let your heart decide
Before you cry
Stop and think it over
Why don't you stop and think it over
Don't go losing heart
If you have your doubts
Then hear them out
Stop and think it over
Why don't you stop and think it over
Whenever you feel low
Don't ever get the blues to go
But even if you do
You'll make it through
'Cause you'll get back what's owed to you
Do what you have to do
If you never have a dream come true
You won't get over it
When you regret
What can take your whole lifetime to forget?
Stop before you start
Let your heart decide before you cry
Stop and think it over
Why don't you stop and think it over
Don't go losing heart
If you have your doubts
Then hear them out
Stop and think it over
Why don't you stop and think it over
(Repeat last 2 paragraphs)
