

Swing Out Sisters, Who's Been Sleeping

(chorus)

Who's been sleeping in my dreams
Who's been living in my head
Meet me when tomorrow's gone
Life could be wonderful
You'll always find a friend
There's a cure for everything
Before the morning comes
Life could be wonderful

Wishing I was dreaming
Spending all my money
Till it's gone
You don't smile so sweetly
I can't keep a secret
Anymore
And I could reach the sky
If I could stop myself from falling down the stairs

Chorus

Watching from my window
Standing in the shadows
For too long
Watching when you're sleeping
You don't really mean it
Anymore
And I could reach the sky
If I could stop myself from falling down the stairs

Chorus twice

Who's been sleeping
Who's been living in my head
Who's been sleeping...
Who's been living...
