

# Swirl 360, Ask Anybody

Who is the girl  
Who's got the morning in her eyes  
Who is the one  
It should come to no surprise

Ask anybody in the world  
(Ask anybody in the world)  
Ask anybody and it's you  
Without a doubt  
Ask anybody in the world

Who is the one that's putting  
Every star to shame  
Who is the voice inside me  
Whispering your name

Ask anybody in the world  
(Ask anybody in the world)  
Ask anybody and it's you  
Without a doubt  
Ask anybody in the world

'Cause you're a hard act to follow  
And a tougher act to swallow  
And I feel like I'm losing ground  
And I never want to have to say no  
Cause if you were a radio  
I'd never turn you down

Ask anybody in the world

Her name's the title and  
The words to every song  
Ask anybody and it was you all along

Ask anybody in the world  
(Ask anybody in the world)  
Ask anybody and it's you without a doubt  
Ask anybody in the world
