

# Swirl 360, Heaven Is What You Make It

Everybody knows there's a heaven  
We just don't know where it is  
It's true, it's true  
When you looked at me last night  
I saw an angel in your eyes  
It's you, it was you

I hoped and prayed  
I would find it one day  
Keep the faith and believe  
There was another way

If heaven is what you make it  
Then my heaven is in your arms  
God only knows we can take it  
Heaven is everywhere  
When I'm in your arms

I was down and oh so lonely  
I'd give up my own heart  
It's true, it's true  
Then you came along  
And set my soul on fire  
Now I'm higher with you  
It's you

I hoped and prayed  
I would find you one day  
I had faith and believed  
There was no other way

If heaven is what you make it  
Then my heaven is in your arms  
God only knows we can take it  
Love is everywhere  
My heaven is in your arms

Happiness always comes and goes  
But I didn't know  
That I would find it there  
In you

If heaven is what you make it  
Then my heaven is in your arms  
God only knows we can take it  
Love is everywhere  
My heaven is in your arms

If heaven is what you make it  
Then my heaven is in your arms  
God only knows we can take it  
Heaven is everywhere  
When I'm in your arms

If heaven is what you make it  
Love is everywhere

God only knows we can take it  
Love is everywhere  
In heaven
