

Switched, Save Myself

Hide my insecurities, breeding, on this disease, slowly, fractionate my brain, I think I'm going ins
These thoughts that can't be seen, reaching, deep into my veins, changing, all that i know, all that

And tonight I wear these crown of thorns, for the last time I should ever.
Stay another night in lonely misery.
Save myself!
But I'll change, this part I hate inside of me.
Save myself!

Your faith, and your beliefs, just tricks, hidden up your sleeves, takes more, power to dissolve, a syst
The fight to destroy, and all you can do to avoid, the finger pointing at yourself, yourself.

And tonight I wear these crown of thorns, for the last time I should ever.
Stay another night in lonely misery.
Save myself!
But I'll change, this part I hate inside of me.
Save myself!

So I run, far away, to escape.
So tell me, cause I don't understand, of whats to become of me.
Cause lately I've seen so many things, that make believe that its over.

Stay another night in lonely misery.
Save myself!
But I'll change, this part I hate inside of me.
Save myself!
Stay another night in lonely misery.
Save myself!
But I'll change, this part I hate inside of me.
Save myself!

I will save myself! (x4)
