

# Switches, Drama Queen

Load up the drugs we'll let the demons come in  
Bring all the kids they won't know where to begin  
Shoot 'em a line they'll lock you up in the pen  
If you're rating my life give it ten

But it remains to be seen if you've got what it takes to be queen  
Just get your ass through my door and don't ask for the chance

Drama Queen - are you clean?

Get in your head invite me down for a dream  
Slip on a tie and take it out on the scene  
Tell all your friends to meet the girl that I choose  
If they cancel your face cut em loose

But it remains to be seen if you've got what it takes to be queen  
Just get your ass through my door and don't ask for the chance to give more

You turn up you tune in, strike a pose start again  
You turn up you tune in, strike a pose start again  
You turn up you tune in, strike a pose start again  
You turn up you tune in, check your pulse

But it remains to be seen if you've got what it takes to be queen  
Just get your ass through my door and don't ask for the chance to give more

Drama Queen - are you clean?  
Drama Queen - where you been?
