Switchfoot, Don't Be There

Don't be there Don't be there 'Cause I'm on my way

And I'm already gone over And I'm on my way, hey

And I can't recall myself How I went down Did I get shot Or shoot myself

I'm down here I'm down here And you're way up there

That doesn't hurt badly But it stings right here, hey

I can't recall myself How I went down Did I get shot Or shoot myself

And I won't pretend there's
Nothing there
You be around
And I'll be square
Don't be alarmed if I'm not there
You be around
And I'll be square

If you're a rose Then I'm the thorn That's in your side

And does it hurt badly? 'Cause it burns right here, hey

I can't recall myself How I went down Did I get shot Or shoot myself

I'd like to say hello
I'd like to say I care
I'd like to let you know
That nothing here's the same with me
Nothing here's the same

I can't recall myself How I went down Did I get shot Or shoot myself

And I won't pretend there's Nothing there You be around And I'll be square Don't be alarmed if I'm not there You be around And I'll be square

Don't be around

Don't be there Don't be there
