

# Switchfoot, Love Is The Movement

A day in L.A.  
And millions of faces  
Looking for movement  
'Cause everything's stuck  
And everything's frozen  
And everyone's broken  
And nobody moves  
And everyone's scared  
That the motion will never come

This is the incomplection  
Stuck in a line

Love is the movement  
Love is a revolution  
This is redemption  
We don't have to slow back down

The stars are alive  
They dance to the music  
Of the deepest emotion  
And all of the world  
Is singing in time  
As the heavens are caving in  
Mysterious ways  
Why God gave His life  
To put motion inside my soul

It's bigger than cold religion  
It's bigger than life

Chorus

We're starting now (x3)  
We don't have to slow back down

This is a revolution (x2)

Chorus (x3)
