

# Swollen Members, Bottom Line

BAM Come on  
BAM Come on  
BAM Come on  
BAM Come on  
BAM Come on  
BAM Come on  
BAM Come on  
BAM Come on

(Chorus)

I rock heavy like a 70's icon  
Led Zeppelin Stairway to Heaven my minds gone  
Even though I only did acid twice  
My rap's advice  
Your head's gonna ask the price

For you to be released, I need to be happy  
With all of your suffering I'm brutally crafty  
Comin' up with the best selection  
To get inside of you I'm like a chest infection

Your best protection is to get down on the ground  
Remember that the Members don't clown around  
I'm found downtown with rolls of cash  
My passion is smashin' your disposable cats  
I'm old-fashoined

With swift abilities to lift and drop  
Ambulance skills plus rip and chop  
Dump on a chump and punk your ass with gas  
Now I'm done with rap now I'm prepared to cash in

(Chorus)

And y'all kick ass  
Because they'll break your bitch ass (oh boy)  
Were gonna drop and equip with a pick-axe  
Rock-solid, you cock-aholics are not gonna frolic any longer  
Cause my crew's much stronger

Donkey Kong Stomp  
Pacman Chomp  
ATTACKin' competition  
Get BACK in my position (pop off)

And stop, ya had to listen  
Cause mad division of beauty and grace (talk shit)  
See what I do to your face  
Might be me might be my friends  
I might need an alibi it all depends

And I don't give a fuck if you don't like it (suck this)  
I'm a small giant that's just tryin' to find success  
You look upset stupid fuckhead  
I'm locked, stocked and loaded the most devoted  
I'm a keep bringin the pain till your brains exploded  
Im motivated voted and rated as one of greatest  
One of the most loved and hated and style (I made it, ya know)

(Chorus)

BAM Come on  
BAM Come on

BAM Come on  
BAM Come on

I'm addicted to speed but not the drug  
I lead by example my breed can hug  
Seen enough mayhem step into the AM  
Weapons of contention for any given occasion

I attack in battle like X-warriors from the armory  
Some of us kill you mentally some others hurt you bodily (heavy)

A miracle of modern science  
With a naturally passionate carnivorous diet (heavy)

Were an anomaly  
Not a novelty  
Enter at your own risk  
private property

Do not trespass beware of dogs  
Bear traps, alarms, and arms and the right to bear arms

Our laws ain't applied, our jaws homicide  
The water ain't safe, whoever said it was LIED

(Chorusx2)

The Rock: Ain't nobody stop me

The Rock: That's the bottom line

(sound of gas pouring and a lighter)
