

# Swollen Members, Members Only

(Mad Child)

Experiment with mind control

crowd convulses, we dont act on false impulses  
discipline with fierce confidence of intrest  
different opinions, but damned if we relinquished  
intentional exuberance, tolerate the turbulence,  
we attract the mentally disturbed and suburban kids,  
Compulle your forces no time to take a breather,  
talkin cocky-ness and rock with these often over acheivers  
viscous sense of humeur, turn you into a believer,  
either dig it or you dont, we wont settle for less,  
you should hate us with a passion, or love us to death,  
da feelin of enchantment, this place for rapture,  
hits home for some, for others its hard to capture  
adapt the interference with a sinaster appearance,  
get devowered by a powerhouse of persaverence

Chorus (Prevail)

Swollen Members only, for a cerimony,  
you know, i know you know me,  
tha ill testimony

(Prevail)

make concepts of mockeries, its simple in its motives,  
you move went it moves, you plan out its orbits,  
the consequence is that its heavy and its tax-less,  
binge your body around with units made for blastin,  
it's a thrashin of national keen for action fill the streets,  
the more i stress it, the less i feel complete,  
the heels of my feet are burnt up from walking,  
up and down the pavement, yellin' slave auction,  
i dont praise those options im not that innocent,  
i raise my opinions through the nemesis dominion,  
they rationally supply us with the big brother of  
this brave new world, catch and dry with the lord of the flies  
a presentation of demise printed in 30 dialects,  
im early to rise, the connections of the monument.

Chorus x2

I'll be sure to tell your crew how hard you faught  
Got rock, got caught bi this on slot of unrattled thoughts  
Valley, vikings strikes us with vengance  
Misguided angel means bad with good intentions  
Pay attention, we rhyme with devine intervention  
see the intersection on connecting nerves now awake  
because canon ball crushed means blast until they break  
How is it living your life inside a limit?  
I tried to find mine but found that they were non exsitant  
Thats belief in myself and the verses i use  
i have confidence and some how thats what gets me through  
Me too my ego shines as bright as the sun  
at the same time insecurity ways a tonne  
Scandlous days are done thats probably the best step  
Keep in focus and depth so bet on us get over from our talent  
and arrest while we out balance the rest!

Chorus x2
