

# SWV, Tell Me How You Want It

(Verse)

Won't you tell me  
What's on your mind  
Are we moving forward  
Or are we, wasting time  
Just when I think I have it  
Thoughts, slip in my head  
Are we for real  
What should I feel  
Help me understand  
Cause deep in my heart  
I imagine you and me  
Sharing true love  
I need to know  
Tell me now  
Is it just a fantasy, ohh

(Chorus)

Tell me how you want it  
Do you want to do it right  
Or do you, only want it for one night  
Tell me how you want it  
We can make it anyway you like  
But I hope it's for the rest of our lives

(Verse)

Oh, there was a time  
Somewhere in my past  
When my heart went  
(Too far and too fast) for love to last  
So before we go  
Even one kiss further  
Should I stay, should I go  
I need to know  
I've got to be sure  
Cause deep in my heart  
I'm looking for you  
To show me a sign  
That love is real and that you,  
Feel this way too  
I'm praying you do

(Chorus)

(Bridge)

You make it so easy for me to fall in love  
Is it just an elusion  
Or something I can trust  
Wanna make the right descision  
Don't wanna leave it to chance  
Baby are we for real  
What should I feel  
Help me understand.....  
Tell me.....

(Chorus)

Repeat Chorus Until Fade.....
