

# Sybreed, Rusted

I see the process deep within, cell aggregated into a new effective form  
I violate to create disorder, to purify my nerves  
Neuro structure now increased, I am the mimetic predator infecting souls  
Rusted creature, I have no meaning excepting cold violence  
I scan the victim, I devour your mind, a weapon initialized  
Rusted... rusted... rusted to the core!  
I want to rape, to destroy your spinal chord, I want to release the hate inside  
To se the pain in your eyes, to extend massive injection of suffering  
Rusted creature, I have no meaning excepting cold violence  
I scan the victim, I devour your mind, a weapon initialized  
Die fucker!  
I'm the pulse of chaos made flesh, conceived to regulate the common norm  
Consciousness reformed, a malignant disease now concretised  
I want to rape, to destroy your spinal chord, I want to release the hate inside  
To se the pain in your eyes, to extend massive injection of suffering  
Rusted creature, I have no meaning excepting cold violence  
I scan the victim, I devour your mind, a weapon initialized
