Syd Barrett, Late Night (Take 2)

When I woke up today and you weren't there to play then I wanted to be with you when you showed me your eyes whispered love at the skies then I wanted to stay with you inside me I feel alone and unreal and the way you kiss will always be a very special thing to me...

When I lay still at night seeing stars high and light then I wanted to be with you when the rooftops shone dark all alone (I) saw a spark spark of love just to stay with you inside me I feel alone and unreal and the way you kiss will always be a very special thing to me...

If I mention your name turn around on a chain then the sky opens for you when we grew very tall when I saw you so small then I wanted to stay with you inside me I feel alone and unreal and the way you kiss will always be a very special thing to me...
