## Sydney Youngblood, If Only I Could

Everybody all around the world, stand up all my brothers Joining our hands, united we're stronger Fighting for peace, caring about our loved ones Trusting ourselves, sharing our feeling, believe me

If only I could I'd make this world a better place If only I could I'd make this world a better place

Oh believe me, believe Believe me, believe, if only I could

I think about the implications when alone between the sheets When all the huggin' and kissin' is tearin' my heart apart All people standin' hand in hand, celebratin' all different colours Joining together, sharing their feelings, please believe me

Oh believe me, believe Believe me, believe

If only I could I'd make this world a better place If only I could I'd make this world a better place

If only I could

Mmm believe me, believe me Believe me, believe

If only I could I'd make this world a better place If only I could I'd make this world a better place (REPEAT TO FADE)
