

Syleena Johnson, Love Hangover

Last night you left me drunk in love and cold
No one to love no one to hold
This morning I'll be looking forward to tonight
Your love hangover is hard to fight

Chorus:

But if there's a cure for this, I don't want it, I don't want it
And if there's a remedy, I don't need it, I don't need it
This kind of love is good to me if only for one night
Eternity is too damn much for me, I don't want to fight
This sweet love hangovers so sweet 'til the night is over

There is something sweet
That you keep on doing to me
And I know soon one day you'll set me free
But tonight, let's make love baby
'Till the break of dawn
In and out all night 'till the early morning

Repeat Chorus

Some say this may be a one night stand
They don't know how you do it to me
You leave me in a trance

Repeat Chorus
