Syleena Johnson, You Said

(feat. Liberty City)

[Woman]
When I say I do, you say I don't
When I say I will, you say I won't
I wanna keep this love but you show me you don't
What's wrong with you baby, tell me the truth

[Man]
I wanna be your man, but right now, I know I can't
It's not that I don't love you, please understand
The situations in my life, they tie up both my hands
I don't wanna lose you baby, I don't wanna confuse you
[Woman]
You said you would always be near.
So why do you run away, my dear
You said I would never be alone
Tell me the truth, what' going on

[Man]
I know I said I'd always be there
But I wouldn't walk away if I didn't care
Things are gonna work out one day
Please believe me, girl, it's better this way
[Both (woman)]
When I say I do
[m] Girl, don't take it personal
[w] When I say I will
[m] Lord knows I've tried. I wanna be your man
[w] Don't take your love away
[m] Baby, right now I can't
[w] One day, you'll be my baby, and I still love you

[w] What about love baby.
What about responsibility
[m] What about the times we don't agree
[w] Baby, love is larger than you and me.
