

Sylwia Lipka, Fly To Sky

Every time I see your smile
Makes me happy
Starts a fire in my heart
You're my shelter
When it rains
Everything's perfect
You are my best friend

Every time I see your smile
Makes me happy
Starts a fire in my heart
I don't want you to walk away
Because I love you
So come and stay!

Waking up without your smile
Will make me lose my mind
Everyday you are not around
I'm looking for Wonderland
Waking up without your smile
Will make me lose my mind
You're the one I care so much
with you I can fly to sky

This time
I wanna I wanna fly to sky
to sky
to sky
but just with you
This time
I won't be scared of height
of height
of height

You make me wanna fly
so high
you make me wanna fly
so high
This time
I wanna I wanna fly to sky
to sky
to sky
but just with you

Every time I look in your eyes
I see a light of thousand fireflies
Now it's so dark
when you're away
Please, come to me
and say it's OK

Waking up without your smile
Will make me lose my mind
Everyday you are not around
I'm looking for Wonderland
Waking up without your smile
Will make me lose my mind
You're the one I care so much
With you I can fly to sky

This time
I wanna I wanna fly to sky
to sky
to sky

but just with you
This time
I won't be scared of height
of height
of height

You make me wanna fly
so high
you make me wanna fly
so high
This time
I wanna I wanna fly to sky
to sky
to sky
but just with you

Waking up without your smile
Will make me lose my mind
Everyday you are not around
I'm looking for Wonderland
Waking up without your smile
Will make me lose my mind
You're the one I care so much
With you I can fly to sky

This time
I wanna I wanna fly to sky
to sky
to sky
but just with you
This time
I won't be scared of height
of height
of height

You make me wanna fly
so high
you make me wanna fly
so high
You make me wanna fly
so high
you make me wanna fly
so high
