Sylwia Wysocka, Don't Call Me Up

When I'm underneath the bright lights When I'm tryin' have a good time 'Cause I'm good now you ain't mine Naw nah nah nah, don't call me up

When you're looking at my photos And getting hot, losing control You want me more now I let go Naw nah nah

I'm over you and I don't need your lies no more 'Cause the truth is without you, boy, I'm stronger And I know it's sad that I changed, have a cold heart But it was your game that left scars, ooh I'm over you

Don't call me up I'm going out tonight Feeling good now you're outta my life Don't wanna talk about us Gotta leave it behind One drink and you're outta my mind

Naw nah, take it up Baby, I'm on a high You're alone, going out of your mind But I'm here out in the club And I don't wanna talk So don't call me up

'Cause I'm here looking fine, babe And I got eyes looking my way And everybody's on my vibe, babe Naw nah nah nah, don't call me up

My friends said you were a bad man I should have listened to them back then And now you're tryna hit me up again Naw nah nah

I'm over you and I don't need your lies no more 'Cause the truth is without you, boy, I'm stronger And I know it's sad that I changed, have a cold heart But it was your game that left scars, ooh I'm over you

Don't call me up I'm going out tonight Feeling good now you're outta my life Don't wanna talk about us Gotta leave it behind One drink and you're outta my mind

Naw nah, take it up Baby, I'm on a high You're alone, going out of your mind But I'm here out in the club And I don't wanna talk So don't call me up

Don't call me up So don't call me up Don't call me up I'm over you and I don't need your lies no more 'Cause the truth is without you, boy, I'm stronger And I know it's sad that I changed, have a cold heart But it was your game that left scars, ooh I'm over you

Don't call me up I'm going out tonight Feeling good now you're outta my life Don't wanna talk about us Gotta leave it behind One drink and you're outta my mind

Naw, nah, take it up
Baby, I'm on a high
You're alone, going out of your mind
But I'm here out in the club
And I don't wanna talk
So don't call me up
