

# System Syn, For Jonny

And it was last night i think  
Or i heard  
That jonny died  
Flew thirty feet  
So fast  
One last flight  
And i hung up the phone  
And paused for a minute  
Standing there thinking about it  
Before i broke down  
Because now i remember everything we did  
Every drop we drank  
On our road to oblivion  
And some may say we were bad people  
I&#039;ve accepted that years ago  
But we had our moments  
God damn it we had our moments  
And i won&#039;t let you die this time  
These are my words upon this paper  
This is my voice possessed in song  
And these words will live forever  
The world will still sing about you  
When i&#039;m gone  
And jonny don&#039;t forget to call me back  
Don&#039;t forget that i&#039;m still here  
And i will say you were a hero  
Kept me alive another year at least  
And talked to me  
When we were spiraling down  
And shook my hand when we had once gain  
Risen to the top

It was worth it  
Life was worth it  
You were worth it  
It has been fun  
I just wish you were around  
To see life past twenty-one
