

# System Syn, Fucked

you sing for me your favorite song  
I lay and my heart sinks  
whoever asked so much from you  
that could not be fulfilled

tell me what it feels like  
when I am gone  
tell me what it feels like  
when I&#039;m not here  
tell me what it feels like  
when I am gone  
tell me for whom else you sing that song

push me girl, just far enough away  
so that I don&#039;t want to return  
pretend it&#039;s all on you  
pretend it is your choice  
now tell me once again  
what does it feel like

tell me what it feels like...
