

# System Syn, If

if it makes you stronger  
if it makes you want less and care more  
if we are more than objects  
if I can come inside you  
if you will not be tested  
if we all wish for death  
if you don't want to fuck me  
if life revolves around you  
if you are more than passion  
if time devours feeling  
if there is absolution  
if we all die alone  
if you can't still taste me  
if you will let me scar you  
if I give you no choice  
if you remember nothing  
if clouds refuse to rain  
if time destroys all feeling  
if I can live without you  
I will live again

I will live again
