

# System Syn, If You Never Heal

these things I know  
are reflections of myself  
and you cant call  
couldnt do that to yourself  
they say Ill never heal  
they say Ill never feel again  
and I believe them  
I believe them

youre waiting for your ship to come in  
like searching for the star you already watched fall  
these things dont happen twice

and if you never heal  
if you never feel again  
I wont place the blame on you  
I will take the shame my friend

these things I know  
will never speak a sound  
this silent promise  
will be our only common ground

and if you never heal  
if you never feel again  
I wont place the blame on you  
I will take the shame my friend
